

WOULD YOU LIKE TO RUN YOUR P2P PROCESSES FRICTION-LESS AND SAVE 30-40% IN OPERATING COSTS?

Our Customers Benefit from Industry Leading Processes and Platforms

Capgemini and BirchStreet have partnered to provide the hospitality industry a "Gold Standard" in end-to-end services and software platform for procurement. AP-as-a-Service or APaaS offers proven methodology for business process outsourcing and a customized platform for the hospitality industry. Together, we create a centralized and standardized shared services procure-to-pay automated system that reduces your costs and increases compliance, and provides actionable business intelligence dashboards for all of your spend and payments to vendors.

In BirchStreet, search & connect with suppliers, create POs, approvals, receiving and more.

In BirchStreet, 3-way auto-match with PO, receiving and invoice.

With Capgemini, business processing is managed seamless as Operations, Accounting, HR and Payments are centralized.

Our customers are able to reduce their costs by 15-20% through implementation of BirchStreet P2P Platform and an additional 30-40% from outsourcing of processes to Capgemini. This is achieved by:

- Centralizing, standardizing and outsourcing back-office processes
- Automating end-to-end processes using BirchStreet cloud based platform
- Increasing buyer and supplier compliance

"Together, we have accomplished a great deal with Capgemini. We had some hiccups along the way, but thanks to the tenacity of all our stakeholders, our Shared Services program is on a solid footing. We continue to drive greater value from Capgemini services and the BirchStreet platform and are expanding with it in other geographies."

Robert Dunigan,
SVP Global Finance Operations and Shared Services
