BirchStreet Inventory Management with AccuBar®

BirchStreet Systems is a leading cloud-based procure-to-pay automation platform for the hospitality industry worldwide. The solution improves profitability and compliance by automating business processes covering e-Procurement, AP automation, inventory control, recipe management, capital projects, supplier management, sourcing and contract management.

BirchStreet Inventory with AccuBar combines all of the deep capabilities of BirchStreet along with AccuBar's comprehensive beverage management and barcode scanning process to make Inventory Management processes simpler and smarter resulting in greater profitability and efficiency.

This redesigned platform addresses the need for a combined solution that excels in fulfilling the wide - ranging needs of hospitality companies to take faster inventory counts and easy transfer of high-turnover items.

The enhanced solution enables organizations to capture and maintain accurate inventory data across multiple locations and provide real-time visibility to perpetual inventory levels. This helps in decreasing high inventory carry cost, spoilage and shrinkage while reducing critical stock outages.

BirchStreet's Inventory Management with AccuBar is seamlessly integrated with its full product P2P suite of e-Procurement, AP Automation, Recipe Management and Capital Projects modules.

It also integrates with BirchStreet's Checkbook Drilldown feature to charge outlets upon fulfillment, allowing properties and enterprises to track true food & beverage costs by outlet. Streamlined replenishment processes with easy set-up of par values for items with color-coded alert notify users as inventory items reach pre-established reordering levels. Further enhancements include automated PO generation for inventory replenishment, as well as planned purchases automation for improved accuracy and waste reduction. BirchStreet Inventory Management's highly configurable module adheres to any type of valuation method providing greater degrees of control to management.

With the Birchstreet Inventory Management Solution, senior management and users will have on-demand knowledge of their on-hand inventory in each of their outlets on their desktop, laptop or mobile device. BirchStreet Inventory Management with AccuBar fully integrates with POS, creating an end-to-end business system to reduce costs and improve efficiency.
